## COMMENTS:

Ms. Mazier became sick in 2019 and was diagnosed with Non-Hodgkin's Lymphoma Throat Cancer. Her cancer was treated very aggressively, and the Chemotherapy made her very sick, so she was hospitalized, since she had Breast Cancer once before they wanted to observe her so the Chemotherapy would not impact her heart, kidneys, and liver. Two months after completing Chemo, she had to start Radiation Treatment. Although, she was hospitalized for several months and the treatments are hard on her body, this does not stop trying to help her community.

Helen Mazier

To The Louisiana Ethics Board,  
first of all I really enjoy the work  
I do with the Greenwood Fire Board of  
Fire District 3, and I wouldn't want to  
do anything to hinder my work there.

But in 2019 I became sick with  
Hodgkin's Lymphoma, Throat Cancer.  
So when I had to have treatment I would  
have to be in the hospital for a number  
of days. They had to treat this cancer  
aggressively. The chemo would make  
me very sick. And I would have to stay  
in hospital and in bed once I got home.  
Because I had had Breast Cancer before  
they had to watch me very closely and  
make sure the chemo didn't hurt my  
heart, kidneys, liver. nor effect the Diabetes  
I have so I had a lot going on. And  
once I'm done with the chemo after  
2 months I had to start the very  
aggressive treatment of radiation.  
Again I had to be watched by doctors  
because I have had it before. And  
the treatments were very intense. And it  
has burned muscles and tissues in  
my throat. So I've not been able to  
eat. Even now the doctors say I might  
never get my taste buds back and it  
will take years for the nerves to grow back.  
But none of this stops me from doing the  
job that helps my community.

Thank you
